Sam Turner Road	Tributary to Crooked Creek	Steel Truss	2008	24.5	31	\$ 1,134,000

Anderson County Safety Projects

Completed 11.22.2023

PROPOSED ANDERSON COUNTY SAFETY PROJECTS
November 21, 2023

Draft list was developed as described below.

- DOT intersection crash statistics were sorted by severity rate. Crash lists (from County's database of DOT crash data) for the locations with generally the highest rates were examined. Those with identifiable patterns and potential for addressing are listed below.
- DOT mid-block crash statistics were sorted by crash rate. The locations with crash rates greater than the DOT average for that road classification were identified and crash lists were examined. Those with identifiable patterns and potential for addressing are listed below.
- The projects considered in the 2006 proposal were examined, and County staff identified those with the highest complaints and observed issues. Those with potential for addressing are listed below.
- A project at the intersection of SC 81/Old Williamston is anticipated as a recommendation of the current SC 81 corridor study. Without support of some other funding source, it is likely to be 10 years before the project could be implemented. Therefore, setting aside some referendum funding to accelerate that project is proposed.

D-1

- Vandiver Road - Sidewalks
- Concord/McClellan - Realign McClellan at Concord to address sight lines

D-1/D-2 Boundary

- Simpson Road (C-10-64) - 250' W of Old Williamston to 2050' W - 17 crashes of which 10 were wrong way or roadside - potential realignment due to S curve and blind drives

D-1/D-7 Boundary

- Crestview - 16 crashes - 11 failures to yield (FTY)

D-2 + D-3

- Broadway Lake Road - Address one-lane bridge and curves

D1 + D-3

- Cathey Road - Address curves

D-3

- US-76/Pinetop Road/James Cox Road - Realign Pinetop with James Cox. SCDOT to strongly consider approving and installing signal - project for future years

Anderson County Road and Bridge Improvement Projects

D-4

- Refuge - Conduct a traffic operations and corridor study of Refuge/Williams to identify and design projects for future years
- Shackleburg - Address blind curves

D-5

- Centerville/Keasler - Realign Keasler closer to 90 degrees

D-6

- McNeely (C-01-313) - 16 crashes - consider RAB's at None Rd and River Rd, bring cross section up to commercial standard from River to 81
- Cely Road - Address curves
- SC 81/Old Williamston - Contribute to GPATS to accelerate the project that comes out of SC 81 corridor study

D-7

- Breazeale Road - Address curves
- Cheddar Road - Address curves and address bridge approach
- SC 8/Palmetto Road - Add left turn lane on SC 8 and right turn lane on Palmetto with closer to 90 degrees - SCDOT to consider approving and installing signal
